

Thyrovanz™

Natural Desiccated Thyroid - *from New Zealand pasture fed cows*

Thyrovanz™ is a Natural Desiccated Thyroid (NDT) supplement produced by Provanz Nutrition Ltd using New Zealand pasture-fed cows. Thyrovanz™ is designed to support healthy thyroid function, bringing back energy and vitality the way nature intended using natural, whole foods.

What is Thyrovanz™ ?

Thyrovanz™ is pure Natural Desiccated Thyroid (NDT), a dietary supplement made from New Zealand bovine thyroid glandular which has been lyophilized (freeze-dried) to retain its freshness and potency. Thyrovanz™ is available in dosages of **25mg, 50mg, 100mg, 150mg, and 300mg capsules.**

Who is Thyrovanz™ suitable for?

Thyrovanz™ is suitable for people who have been determined to benefit from taking supplemental thyroid glandular containing hormones to support their own thyroid function, energy levels, and metabolism. Please check with your Doctor first, before starting Thyrovanz™ or any other supplement or medication.

Thyrovanz™ ingredients

While we have done our best to include as few fillers as possible, some are required to assist the manufacturing process and ensure that each dosage is accurate. Aside from the Natural Desiccated Thyroid contained in each capsule, there is also: **Gelatin, Long Rice Flour, Vegetable Sterate, and Silica.** Thyrovanz™ contains no wheat, gluten, dairy, egg, soy, corn or GMO material.

Thyroid hormones and ratios

Thyrovanz™ is classed as a whole-food dietary supplement with each capsule containing the natural contents of the bovine thyroid glandular which include thyroid hormones T4, T3, T2, T1, and Calcitonin. However, being classed as a dietary supplement, the relative amounts of these hormones has not been established.

Potential side-effects of taking Thyrovanz™

The primary potential side-effect of taking Thyrovanz™ is temporary over-stimulation. Signs of over-stimulation are: An increased heart rate or heart palpitations, feeling shaky or even very mild tremor in the hands, feeling hotter than usual, and sometimes fatigue. The effects of over-stimulation are the result of the dose being too high and will usually be gone within a few hours once the dose is lowered or stopped. If these symptoms persist it is important to seek medical attention.

Where is Thyrovanz™ manufactured?

Thyrovanz™ is manufactured in California, USA in a certified GMP (Good Manufacturing Practices) facility. Each batch is tested for bacterial safety and dose accuracy.
